Notes and additional information:

- **Examination periods:** The regular examinations generally take place during the last week of the academic term while the re-examination phase is generally scheduled for the last two weeks of the work term.
- **Closing times:** Periods within the academic terms during which the university is closed (in particular between Christmas and New Year) will be announced by the university. Students can either take annual leave or work in their company.
- **Annual leave:** Taking annual leave is generally possible in individual consultation with the company during the work terms.
- **End of the last semester of study:** Deviating from the academic term periods in the winter semester stated above, the seventh regular semester of study (winter semester) always ends on the last day of February. Example: For all 2024 first-year students, studies end on 29/02/2028, NOT on 09/04/2028.
